

# UNFPA Palestine Humanitarian Response Plan 2020

United Nations Population Fund

## Protection Cluster

### Prevention and Response to gender-based violence in West Bank and Gaza Strip

**Location:** Gaza Strip and West Bank including East Jerusalem

**Duration:** 1/1/2020 - 30/06/2021 (18 months)

**Budget:** 1,526,040 USD

**Target groups:** 6,000 GBV survivors through services, including 1,000 women and girls with disabilities, 1,070 GBV service providers through trainings, 10,000 women, adolescents, girls and boys through awareness activities

**Objective:** the project aims to assist the most vulnerable women, adolescent girls and boys who are survivors of GBV, especially women and girls with disabilities and those affected by the GMR in Gaza, by improving their access to essential, safe and high quality GBV multi-sectoral services.

### Responding to the Humanitarian GBV needs of East Jerusalem

**Location:** East Jerusalem

**Duration:** 1/1/2020 - 31/12/2020 (12 months)

**Budget:** \$500,000

**Target groups:** 3,000 GBV survivors through MHPSS, 2,000 through provision of dignity kits, 1,000 through case management, 50 through economic empowerment, 3,000 women, girls, men and boys through awareness, 100 front line GBV staff through trainings

**Objective:** the project aims to improve access of vulnerable women and girls, including women and girls with disabilities, to essential, safe and high quality multi-sectoral services in East Jerusalem through the protection network «HEMAYA», using health as an entry point, and by establishing counselling rooms in four hospitals.

### Gender-based Violence Sub-Cluster Lead Support

**Location:** Gaza Strip and West Bank, including East Jerusalem

**Duration:** 1/1/2020 - 31/12/2020 (12 months)

**Budget:** 250,000 USD

**Target groups:** 60+ members of the GBV Sub-Cluster, including more than 40 national and international NGOs, 8 line ministries and 11 UN Agencies.

**Objective:** The project will support leadership and coordination of GBV prevention, mitigation and response efforts across the Palestinian territory, through the the GBV sub-cluster. The sub-cluster works to enable its 60+ members to identify and coherently respond to GBV protection concerns, and supports GBV mainstreaming capacity across and within clusters.

Survivors of Gender-based violence can access confidential counselling, case management and referral to services through UNFPA-supported safe spaces

## Health Cluster

Improving access to and provision of life-saving maternal and reproductive health services and information to the most vulnerable communities in the West Bank.

**Project location:** Bethlehem, Hebron, Jenin.

**Duration:** 1/1/2020 - 31/12/2020  
(12 months)

**Budget:** 887,760 USD.

Target group 19,521 people total, with a primary focus on women and girls.

**Project objective:** This project aims to provide mobile primary health care services to vulnerable communities in Area C, who otherwise have limited or no access to primary healthcare. The project also supports maternal health care services, particularly for safe delivery services, in Hebron.

Supporting the Gaza health system in providing life-saving reproductive health services, and strengthening community preparedness and resilience in the face of the protracted crisis

**Project location:** Gaza

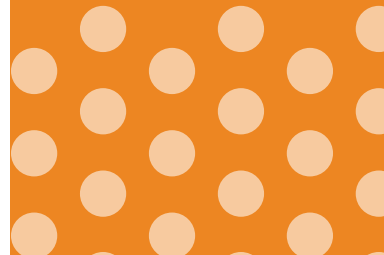

**Duration:** 1/1/2020 - 31/12/2020 (12 months)

**Budget:** 1,040,752

**Target groups:** 100,250 people, primarily women of reproductive age, especially pregnant women

**Project objective:** The project aims to save women's lives and ensure that, despite the toll on the health system, women and girls have access to essential Sexual & Reproductive Health (SRH) including maternal health services and information. This will be achieved through filling gaps in SRH and maternal health services, mitigating the impact of severe shortages of supplies and reinforce life-saving SRH and maternal care service provision and preventing excess mortality and morbidity.

UNFPA provides life saving support to ensure pregnant women can deliver safely - even in crisis situations

## Providing critical MHPSS for young people affected by conflict

**Location:** Gaza and West Bank

**Duration:** 1 January 2020 - 31 December 2020

**Total budget:** 333,444\$

**Target groups:** Total 65,000 people: Young people (10-29 years) (62,000), health providers and community workers (300) and community members (6500)

In recognition of the mental health crisis facing young people in the Palestinian territory as a result of protracted conflict, stress and trauma, this project aims to meet the MHPSS needs of young people (10-29 years). It covers capacity building for service providers in the provision of critical counselling and services, integration and standardization of adolescent and youth-sensitive services and information in dedicated spaces (educational institutions and fixed/mobile clinics), and delivery of community awareness and education sessions.
